PROFESSIONAL SUMMARY

Results-driven data and risk analytics professional with experience monitoring revenue assurance and fraud controls across 17+ international markets. Skilled in Python, SQL, and Power BI for building data pipelines, dashboards, and fraud detection analytics. Proven ability to translate complex datasets into actionable insights that protect revenue and support executive decision-making. Passionate about leveraging data science and machine learning to solve complex business and operational challenges.

EMPLOYMENT HISTORY

Senior Business Risk Analyst
Digicel Group | Aug 2023 – Present

- *Support the migration of revenue assurance and fraud monitoring systems from a legacy platform to a scalable analytics architecture used across 17+ international markets.*
- *Collaborate with engineering and operations teams to define system requirements and coordinate deployment phases.*
- *Develop Power BI dashboards and analytical reports used by senior leadership to monitor revenue leakage and fraud risk.*
- *Improve data integrity and automate revenue assurance pipelines, reducing manual reporting effort.*
- *Mentor analysts and support knowledge sharing on analytics methodologies and fraud monitoring tools.*

Business Risk Analyst
Digicel Group | Jul 2019 – Nov 2022

- *Monitored fraud and revenue assurance controls across 17+ markets, optimizing detection strategies that protected $500K+ USD annually.*
- *Designed enterprise Power BI dashboards translating telecom transaction data into actionable insights for operational and executive teams.*
- *Investigated revenue reconciliation variances, fraud alerts, and system anomalies to identify root causes and implement controls.*
- *Produced executive risk reports and supported improvements to the RAFM platform.*

Revenue Assurance Intern
Digicel Group | Feb 2019 – Jul 2019

- *Assisted with fraud monitoring and revenue leakage detection across telecom operations.*
- *Built Power BI dashboards to improve monitoring visibility of operational metrics.*
- *Analyzed transaction datasets to identify process gaps and revenue risk exposures.*

Independent Contractor – Residential Repairs & Personal Services
Freelance | 2012 – Present

- *Provide residential repair and maintenance services including tiling, masonry, roofing, plumbing, and property improvements.*
- *Offer barbering services within the community and provide volunteer grooming services for elderly residents.*
- *Manage client relationships, project scheduling, budgeting, and service delivery across multiple engagements.*

Administrative Assistant (Summer Intern)
Jamaica Public Service Company

- *Assisted with redesigning the Energy Management System (EMS) layout for Jamaica, documenting network switches and infrastructure components.*
- *Supported engineering and administrative teams with documentation and operational tasks.*

Administrative Assistant (Summer Intern)
Ministry of Labour & Social Security – PATH Division

- *Maintained records and performed data entry for beneficiary program documentation.*
- *Assisted students and parents with inquiries and escalated complex issues to appropriate officers.*
- *Supported general administrative operations and documentation management.*

ACADEMIC BACKGROUND

University of Technology, Jamaica.
Bachelor of Science in Computing

- Aug 2014 – Nov 2019
- GPA: 3.25 / 4.0

Kingston College

- Caribbean Advanced Proficiency Diploma (CAPE): 2012 – 2014
- High School Diploma (CSEC): 2007 – 2012

TECHNICAL SKILLS

93%

Programming
- Python, Java, C, JavaScript, PHP, SQL, HTML, CSS

86%

Data Analytics & Visualization
- Power BI, Tableau, Excel, JupyterLab

90%

Web & Application Development
- Node.js, React, ReactJS, Django, Spring, Spring Boot, WordPress

82%

Databases
- Oracle, Microsoft SQL Server, MongoDB, Microsoft Access

90%
